

ABOUT US

Established: February 1990, 35 years

Headquarters: Istanbul, Türkiye

Facility Size: 5,000 m² modern production facility

Employees: ~60, including 18+ engineers

Export Reach: 35+ countries

EDS Elektronik Destek Sanayi ve Ticaret Ltd. Şti. is a 100% domestic Turkish company specializing in manufacturing and engineering services in the field of electronics. Founded in 1990, EDS offers a comprehensive product portfolio and services spanning CCTV Systems, Control Systems, Fire Detection Systems, Intrusion Detection Systems, Access Control Systems, Automation Systems, Environmental Monitoring Systems, and Power Electronics. The company is actively engaged in R&D, production, import, export, distribution, sales, marketing, and after-sales technical services, supported by its TÜBİTAK-approved R&D center approved by Ministry of Industry and Technology with decades of industry expertise. EDS manufactures according to IPC 610 Standards with Lead-Free SMT lines.

PRODUCTS

- Fire Detection Systems
- Intrusion Detection Systems
- Gas Detection Systems
- Power Supplies
- Environmental Monitoring Systems
- Access Control Systems
- Voice Warning Systems

Gas Detection Systems

Addressable, Toxic and Flammable

FIRE DETECTION

- Addressable and Conventional
- 1 to 4 Loop Addressable / 1 to 16 Zone Conventional
- 7" LCD / Numerical Display options
- EN54 Approval

GAS DETECTION

- Designed for car parks and tunnels
- 1/2/4 Loop options
- CO, NO, NO2, LPG, Methane Detection
- Adjustable 3 Alarm Levels
- Comply with EN 50545-1

INTRUSION DETECTION

- Wireless and Wired Options
- Wireless IP+4G Control Panel, Motion PIR Detectors, Magnetic Contacts, Outdoor Sirens, Internal Sirens, Modules, Exit Buttons
- Comply with EN 50131

POWER SUPPLIES

EDS offers three different box selection for 12V, 13.6V, 24V and 27.2V power supplies. EDS power supplies are used in numerous applications such as CCTV, Fire Detection, Intrusion Detection and Access Control.

IOT

IOT devices designed to detect temperature, pressure, humidity, noise and voltage & frequency changes. Used in wide range of applications and markets such as medical, pharmaceutical, industrial, commercial and many more. Please visit <https://esense.com.tr> for web interface.
